## II. School Climate

### School Safety Plan

This section provides information about the school's comprehensive safety plan.

July 1, 2006, Yosemite Joint Union High School District and Coarsegold Union School District unified to become Yosemite Unified School District. The safety plans from both districts, and all of the schools in the districts, were revised for the unified district. A major effort was made during the early part of 2007 to revise and update the district's safety plan and crisis response plan. The district hosted a School Safety Summit in February for all of the school districts in the area and all of the emergency services agencies. Using information gathered from the summit, and from meetings with emergency services agencies, the plan was updated to conform to the National Incident Management System (NIMS) as required by law. In the past, the crisis response plan had conformed to the Standardized Emergency Management System (SEMS), which was replaced by NIMS. In addition to the district crisis response plan, each school has its own Safe School Plan based on staff and student surveys. These plans were completed during the spring of 2007.

Evergreen High School maintains a safe and positive learning environment. Students are on the campus one day a week with varied schedules. Because of the limited amount of time each student spends at the site, there is not a lot of opportunity for interaction. The climate for learning is very positive. Students work one-on-one with their teacher and they receive a lot of encouragement and positive reinforcement. The students are very focused and self motivated.

#### School Safety Plan

Key elements of the School Safety Plan include:

- A. Personal Characteristics of Students and Staff
  - 1. Goal: To increase parental involvement.
  - 2. Activities: Staff and administration will make an extra effort to involve parents in the school and their student's education. They invited parents to be on the accreditation committee and to participate on the Senior Project boards.
- B. School's Physical Environment
  - 1. Goal: To increase the safety of the campus.
 Activities: Have hand-held radios at the site so staff can contact the district office in an emergency and so they can be easily notified in an efficient manner if there is a problem at the adjacent schools.

## Suspensions and Expulsions

This table displays the rate of suspensions and expulsions (the total number of incidents divided by the total enrollment) at the school and district levels for the most recent three-year period.

## III. School Facilities

### School Facility Conditions and Improvements

This section provides information about the condition of the school's grounds, buildings, and restrooms, and a description of any planned or recently completed facility improvements.

The district makes great efforts to assure that all schools are clean, safe and functional. To assist in this effort, the district used the facility survey instrument developed by the State of California Office of Public School Construction. The most recent survey was completed in September 2006. The results of this survey are available at the school office, the district office or on the Internet at [www.yosemiteusd.com](http://www.yosemiteusd.com)

**Age of School Buildings:**

Evergreen High School is a one classroom portable facility. The original portable was put on the site in 1992.

**Maintenance and Repair:**

District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority.

There are currently no emergency facility needs at the school.

**Cleaning Process and Schedule:**

The director of maintenance, operations and transportation is a member of the district management team and is in daily contact with the operations facilitator and the custodial supervisor to ensure an efficient cleaning process and schedule. The staff works together to ensure a clean and safe school.

**Deferred Maintenance Budget:**

The district participates in the State School Deferred Maintenance Program which provides state matching funds to assist school districts with expenditures for major repair or replacement of existing school building components. For the 2006-07 school year, the unified district was allocated \$96,306 for the deferred maintenance program and matched with \$100,000. This represents less than one percent of the district's general fund budget. Deferred maintenance projects in the district include floor covering, heating and air conditioning, painting and paving.

## VIII. Student Performance California Standards Tests

The California Standards Tests (CSTs) show how well students are doing in relation to the state content standards. The CSTs include English-language arts and mathematics in grades 2 through 11; science in grades 5, 8, 9, 10, and 11; and history-social science in grades 8, 9, 10, and 11. Student scores are reported as performance levels. Detailed information regarding CST results for each grade and performance level, including the percent of students not tested, can be found at the CDE Web site at <http://star.cde.ca.gov/>. **Note: Scores are not shown when the number of students tested is 10 or less, either because the number of students in this category is too small for statistical accuracy, or to protect student privacy.**

## California High School Exit Exam (CAHSEE) Results

The California High School Exit Exam is primarily used as a graduation requirement in California, but the results of this exam are also used to determine Adequate Yearly Progress (AYP) for high schools, as required by the federal No Child Left Behind (NCLB) law. The CAHSEE has an English language-arts section and a math section and, for purposes of calculating AYP, three performance levels were set: Advanced, Proficient, and Not Proficient. **Note: To protect student privacy, scores are not shown when the number of students is 10 or less.** The score a student must achieve to be considered Proficient is different than the passing score for the graduation requirement.

## CAHSEE Results for All Students – Three-Year Comparison

This table displays the percent of students achieving at the Proficient or Advanced level.

This table displays by grade level the percent of students meeting fitness standards (scoring in the healthy fitness zone on all six fitness standards) for the most recent testing period. Detailed information regarding this test, and comparisons of a school's test results to the district and state levels, may be found at the CDE Web site at <http://www.cde.ca.gov/ta/tg/pf/>. Note: Scores are not shown when the number of students tested is 10 or less, either because the number of students in this category is too small for statistical accuracy, or to protect student privacy.

Grade Level	Percent of Students Meeting Fitness Standards

## IX. Accountability

### Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ap/>.

### API Ranks – Three-Year Comparison

This table displays the school's statewide and similar schools API ranks. These ranks are published when the Base API is released each March. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest 10 percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest 10 percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing 10 schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

API Rank	2004	2005	2006
Statewide	2	3	3
Similar Schools	N/A	N/A	N/A

### API Changes by Student Group – Three-Year Comparison

This table displays by student group the actual API changes in points added or lost for the past three years, and the most recent API score. Note: "N/A" means that the student group is not numerically significant.

Group	Actual API Change			API Score

## Adequate Yearly Progress

The federal NCLB act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in English-language arts (ELA) and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics

### Completion of High School Graduation Requirements

Students in California public schools must pass both the English-language arts and mathematics portions of the California High School Exit Examination (CAHSEE) to receive a high school diploma. For students who began the 2006-07 school year in the 12th grade, as evidenced by that school year's October CBEDS enrollment, this table displays by student group the percent who met all state and local graduation requirements for grade 12 completion, including having passed both portions of the CAHSEE or received a local waiver or state exemption. Detailed information about the CAHSEE can be found at the CDE Web site at <http://www.cde.ca.gov/ta/tg/hs/>. Note: "N/A" means that the student group is not numerically significant. "N/A" for the state means not available.
